

Paul Morris

BEng (Hons) MA

Director

Paul graduated from The University of Leeds with a Bachelors degree in Civil and Structural Engineering in June 2003, before going on to complete a Master of Arts degree in International and European Business Law at the same University whilst working part time at Civic Engineers (previously Stockley), Paul then took up a full time role on completion of his degree.

Paul's experience at the practice includes the design and delivery of high specification structural engineering projects, refurbishment of historic and listed building structures, development appraisal and infrastructure strategies, site remediation and enabling, highways, public realm and drainage design (including SuDS), contract administration and construction management. Paul has also worked with Places Matter! to deliver a series of workshops on the implementation of Manual for Streets.

Notable projects on which Paul has played a key role during his time at the practice include:

- Altrincham Public Realm improvements (2015). Civil engineering design and Project Management (NEC) of the first phase of public realm improvements to Altrincham town centre.
- TfL SuDS and Streetscape Design Guidance(2016). Co-authoring of the TfL design guidance due for publication in 2016
- Cambridge Street, Manchester (2014) New build 28 and 22 storey residential towers for Renaker Build with Hodder Architects
- Mayfield Depot Change of Use (2014) Proposed Change of use of Victorian Goods Depot to significant new events venue for Manchester.
- Coach Rd, Whitehaven (2013-14) New 60 unit Extra Care Housing Development for Maple Grove Developments raised on stilts above flood risk level.
- The Malings, Ouseburn (2012-14) Phase 1 of wider proposals for the Ouseburn valley includes 76 new homes. Works include site remediation, highway retaining structures, river wall strengthening and SuDS drainage for Igloo Regeneration with Ash Sakula Architects.
- Ancoats Cutting Room Square (2013-2014) An Extension to Cutting Room Square, Ancoats to create a new public space with Camlins Landscape Architects
- Altrincham Lower Market Square (2013-2014) Construction of this new shared surface Market Square is the first phase of the implementation of the Public Realm Strategy for Altrincham town centre which Civic Engineers prepared with Planit-ie.
- Road Bridge Connection to Development Site, Worsley (2013) Scheme design of a road bridge to enable development on a land locked site in Worsley. The bridge weaves around existing trees to minimise the impact on the local environment.
- Park Lane, Poynton (2011-2012) Detailed design of this exemplar shared space scheme in the heart of Poynton for Cheshire East Council.
- New Bolton Woods, Bradford (2011-2014) Masterplan and infrastructure strategy for over 1000 new homes and other uses on a steep hillside site to the north of Bradford to be submitted for planning in July 2014. The client is a partnership between Urbo and BMDC, we are working with masterplanners Urbed and Architect OMI.
- Oldham Gateway Housing PFI (2010-2014) Design of s38 highway works including shared surface streets, and public realm for this Housing PFI which includes 430 new homes.
- Wirral Waters (2009-2010) Mixed use development on a site of more than 50Ha in Wirral for Peel Holdings with Architects including AHMM, SOM, Glenn Howells, HKR & Landscape Projects
- Maidstone High St. (2008) Renewal of Maidstone High St. to reallocate space and priority to people on foot over buses and other vehicles with Letts Wheeler Architects.
- Chesterfield Waterside (2007-2014) Masterplan for around 1200 new homes and other uses including new canals and a canal basin. The canal basin was delivered in 2008.
- Dornoch Town Extension (2007-2010) Town extension providing 200 new homes on a greenfield site in Dornoch, Scotland.
- Scotland's Housing Expo (2006-2008) Design of infrastructure and public realm for this exemplar housing development in Inverness, Scotland including shared space streets and SuDS drainage with Area (previously Cadell2)
- Brighton New Road (2006) Exemplar shared surface scheme in Brighton with Landscape Projects.
- Middlehaven, Middlesbrough (2006-2009) Masterplan for the regeneration of the Middlehaven Dock by Will Alsop including public realm and landscape by Grant Associates which was delivered as a first phase of development.
- West Bromwich Town Square (2005-2006) New Town Square for West Bromwich with Camlins Landscape Architects.
- New Islington Millennium Village, Manchester (2003-2012) Significant regeneration project for Manchester including site remediation, new canals and canal park, bridges, street works and infrastructure required to provide serviced development platforms.
- Town Centre Public Ream Strategies for Altrincham; Piccadilly, Manchester; Caernarfon; Colwyn Bay; Carlisle; Clitheroe; Ancoats, Manchester and Bath Pattern Book.
